As part of the grade for your web project, I would like you to write a reflective essay that explains:

a. your role in the overall project;
   b. what you believe the project accomplished;
   c. the positive and negative aspects of the experience as a whole.

This essay will be factored into your individual grade for the group project and is DUE in class, Friday, December 9, 2011, or you may submit it to the dropbox. Failure to turn this essay in will be a strong indication of your failure to participate in the group project as a whole and will have a severe negative effect on your individual grade, regardless of the strengths and/or weaknesses of the web site produced by your group.
