HP585
Significant Buildings

Assignment: Choose a building from the following list and deliver a 2-5 minute presentation indicating why the building might be significant and why it is considered part of the “canon” of great buildings. These buildings are all illustrated in the textbook (page number is listed in parentheses). You may petition the instructor to add a building to the list so that you can present on it. In that case, you would be arguing that the building should be considered part of the canon and should be added to the list of buildings included on the final exam. If any buildings are added a corresponding number of buildings will be deleted from the list. Presentations will be scheduled at various times throughout the semester.

**Significant Buildings**

**Exam 1**
- Palace of the Governors (p. 47)
- San Estevan (p. 48)
- Cahokia Courthouse (p. 50)
